Professional Summary

Full Stack Engineer and AI Engineer with 2+ years building production **Generative AI, LLM, RAG**, and **MCP (Model Context Protocol)** systems alongside enterprise SaaS. Skilled in **AI Agent orchestration, prompt engineering, multi-model integration** (Claude, GPT, Kimi, GLM) via **AWS Bedrock, Python (FastAPI), Java (Spring Boot), React.js, Next.js, Docker, AWS, REST APIs, Microservices, JWT/RBAC**, and **CI/CD**. Proven delivery of government, enterprise, and AI-native products with 100% sprint success.

Technical Skills

AI / GenAI: LLM, Generative AI, RAG (Retrieval-Augmented Generation), MCP (Model Context Protocol), AI Agents, Agentic Workflows, Prompt Engineering, Prompt Caching, Vector Embeddings, Semantic Search, LiteLLM, Claude, GPT, Kimi K2, GLM-5, Minimax, AWS Bedrock, Text-to-Speech

Languages: Python, Java, JavaScript, TypeScript, SQL, PHP, Bash

Backend: FastAPI, Spring Boot, Node.js, Express.js, Laravel, RESTful APIs, Microservices

Frontend: React.js, Next.js, HTML5, CSS3, AJAX, Tailwind CSS

Cloud & DevOps: AWS (Bedrock, EC2, S3, Lambda, IAM), Docker, Docker Buildx, GCP, CI/CD, Linux

Databases & Security: MySQL, PostgreSQL, Vector DB concepts, JWT, OAuth 2.0, RBAC, XSS/CSRF Protection

Tools & Methods: Git, GitHub, GitLab, Playwright, pytest, Postman, Agile/Scrum, System Design, TDD

Work Experience

Ethara AI

Mar 2026 – Present

Full Stack Engineer

Gurugram, India

- Engineering production **AI/LLM platforms** and **agentic coding pipelines** orchestrating **Generative AI** models for automated software engineering at scale.
- Architecting **multi-model LLM integrations** on **AWS Bedrock** (Claude, Kimi, GLM, Minimax) and **OpenAI** via **LiteLLM**, with **prompt caching** and **cost optimization**.
- Shipping **RESTful microservices** in **FastAPI** and **React.js/Next.js** dashboards for **AI Agent** orchestration, evaluation, and observability; **RAG** and **MCP**-style context injection from spec docs, code, and test traces.
- Owning **Docker**-based containerization, **CI/CD**, **AWS** deployment, **JWT/RBAC** security, and performance tuning for high-throughput AI workloads.

Austere Systems Limited

Jan 2024 – Feb 2026

Software Developer

Pune, Maharashtra

- Progressed **Intern** → **Trainee** → **Software Developer**; delivered **ERP, FDMS, Audit Management SaaS**, and **Voice Broadcast** platforms.
- Engineered **RESTful APIs** in **Java Spring Boot** and **Python FastAPI** with **JWT, Spring Security**, and **RBAC** across multi-level user hierarchies.
- Built **React.js / Next.js** frontends with **real-time dashboards, SLA indicators**, and **status monitoring**; integrated **AI Text-to-Speech (TTS)** and **detection models**.
- Optimized **SQL queries** and transactions for **40%+ performance gains**; led **12+ developers** to a **100% sprint success rate**; deployed on **AWS** and **GCP**.

Projects

Kaiju – AI Coding Pipeline & LLM Agent Orchestrator | *Python, Docker, AWS Bedrock, LLM, MCP* Mar 2026 – Present

- Engineered a **3-stage AI coding pipeline** (**Draft** → **Lint** → **Test Refine**) orchestrating **LLM agents** to autonomously implement Python libraries from AST-stubbed code, hitting **80%+ pass rates** on benchmark repos.
- Integrated **multi-LLM backends** on **AWS Bedrock** (Claude Opus, Kimi K2.5, GLM-5, Minimax) and **OpenAI GPT-5** via **LiteLLM** with **prompt caching** and cost analytics.
- Built a **RAG** layer scraping spec PDFs via **Playwright** and **MCP**-style context injection (source files, unit tests, lint diagnostics, pytest traces) into agents.
- Developed an **AST-based code stubber**, **Docker Buildx (OCI export)** containerization with **ThreadPoolExecutor** parallelism, **arm64/amd64** auto-detection, inactivity **watchdog**, and per-stage evaluation metrics.

Enterprise SaaS Audit Management Platform | *React.js, Web Security*

Aug 2025 – Feb 2026

- Constructed a **scalable SaaS audit platform** with **role-based UI** for **7 user roles**, **SLA dashboards**, secure auth, and **XSS/CSRF** hardening.

Voice Broadcast Management System | *FastAPI, Next.js, AI/TTS*

July 2024 – July 2025

- Built end-to-end **Voice Broadcast** platform with **AI-powered TTS** and **detection models**, **real-time campaign tracking**, and **analytics dashboards** on **FastAPI** + **Next.js**.

FDMS – Haryana Government | *Java, Spring Boot, JWT, RBAC*

Jan 2024 – June 2024

- Engineered a **Fund Disbursement Management System** for the **Haryana Government** with secure **RESTful APIs**, **role-based authorization** (Admin/Officers/Employees), and **ACID-compliant** transactions.

Education

Savitribai Phule Pune University

Aug. 2019 – Aug. 2023

Bachelor of Engineering in Computer Science (CGPA: 8.81)

Pune, Maharashtra
